

UUNIQUE- Uni-directional Knife Gate Valves-Resilient (Integral Seated) Type

Model -US-03

The US-03 model knife gate valves are resilient seated uni-directional, full lug , bonnet less design valves complying to MSS SP-81 standard. These knife gate valves are suitable for different applications in power , cement, paper and pulp, chemical ,biomass, process industries, water and waste water treatment plants etc.

In this version , a dowel -type groove is provided in the body for resilient seating ,ensuring a drip tight shut-off ensures durability and reliable performance in diverse applications.

As standard US-03 model valves are supplied with valve body in stainless steel, cast carbon steel and can also be supplied in a range of high alloy materials such as Duplex, Hastelloy etc.
